Education

Brown University, Providence, RI
Ph.D. in Computer Science, advisor: Ellie Pavlick — Sept 2025 - now (expected May 2029)

Brown University, Providence, RI
M.S. in Computer Science, GPA: 4.00/4.00 — Sept 2023 - May 2025

- Relevant Coursework: *Computational Linguistics*, *Deep Learning*, *Topics in Self-Supervised Learning*, *Interpretability of Language Models*, *Systems for Machine Learning*

Tufts University, Medford, MA
B.S. in Computer Science and Philosophy, GPA: 3.97/4.00 — Sept 2019 - May 2023

- Relevant Coursework: *Introduction to Machine Learning and Data Mining*, *Linear Algebra*, *Algorithms*, *Computation Theory*, *Introduction to Linguistics*, *Formal Logic*, *Epistemology*
- Honors: *summa cum laude*; *Helen Morris Cartwright Prize in Philosophy*

Publications & Preprints

Slow to See, Slow to Suppress: Understanding the Effects of Modality in Context-Memory Conflicts
Athulith Paraselli, **Etha Tianze Hua**, and Ellie Pavlick
Findings of EMNLP 2026

Source-Modality Monitoring in Vision-Language Models
Etha Tianze Hua, Tian Yun, and Ellie Pavlick
COLM 2026

How Do Vision-Language Models Process Conflicting Information Across Modalities?
Tianze Hua*, Tian Yun*, and Ellie Pavlick
ArXiv Preprint 2025

mOthello: When Do Cross-Lingual Representation Alignment and Cross-Lingual Transfer Emerge in Multilingual Models?
Tianze Hua*, Tian Yun*, and Ellie Pavlick
Findings of NAACL 2024

Working Experience

Kensho Technologies, New York, NY
Research Scientist Internship, advised by Chris Tanner — May 2026 - Aug 2026

- Conduct research in agent evaluation – how does documentation quality affect agent tool-calling performance across tools of different complexity levels.

Research Experience

LUNAR Lab, Brown University, Providence, RI
Advised by Ellie Pavlick — Sept 2023 - present

- Conduct research in the interpretability of language and multimodal models.

Levin Lab, Tufts University, Medford, MA
Advised by Gizem Gumuskaya — May 2022 - May 2023

- Formalized a computational model of staged biobot self-assembly based on rotatable Wang tiles

- Designed and implemented a shape compiler, which analyzes input target shapes and computes specifications of constituent biobots with staged choreography

Teaching Experience

Brown University, Providence, RI
Teaching Assistant — Sept 2023 - present
CSCI 1460: Computational Linguistics (Fall 2024)
CSCI 1260: Compilers and Program Analysis (Fall 2023)

Technical Skills

- Deep Learning and Machine Learning: PyTorch, Transformers, SciPy, NNsight
- Natural Language Processing: SpaCy
- Programming Languages: Python, C++, C, OCaml
